OC-MLS WEEKLY STAFF NOTES
FOR WEEK OF 28 MAY - 1 JUNE 1984

1. OL is now updating financial transactions daily vice monthly which should reduce the amount of "float" between OC FAN manager records and the monthly trend reports.
2. Area Headquarters were asked to update spending projections for the remainder of FY-84.
3. C/RAG attended the initial meeting of a special MILSATCOM sub-panel addressing communications satellite architecture issues.
4. DSCS follow-on study: We provided general information about current SKYLINK and related programs to be included in the identification of transition issues from current DSCS to any future wideband system.
